This copy has been prepared by the Department of Mines ar
Minerals and paid for from state funds.

INTRODUCTION

Kentucky Coal production was 151,312,443 tons in 1982. The 1982 production of 151,312,443 tons was 6,247,061 tons less than the previous year of 157,559,504 tons. Kentucky remained the nation's largest coal producing state by out-distancing the nearest rival by 22,534,367 tons. In 1982 over seventy-three million tons of coal were mined by surface operations while over seventy-seven million tons were mined underground.

The coal industry furnished direct employment for 54,750 miners.

Forty miners were killed in Kentucky coal mine accidents in 1982.

The clay mining industry mined 266,489 tons in 1982. No fatal accidents occurred at clay mines during the year.

The following chart compares production of the various types of coal mines for the past two years:

	PRODUCTION IN TONS		PER CENT

DIRECTORY AND STATISTICS OF DEPARTMENT OF MINES AND MINERALS INSPECTION DISTRICTS

To facilitate the mine inspection duties of the Department, the coal fields have been divided into six inspection districts. A mine rescue stations which serves as the district office is centrally located in each district. The Eastern Kentucky coal field is divided into five districts, with mine rescue stations located at Harlan, Hazard, London, Martin and Pikeville. An office at Madisonville serves the Western Kentucky coal field.

The operations for the district offices is directed from the office of the Commissioner located in Lexington. General staff and Lexington office personnel are as follows:

Willard Stanley, Commissioner
Margaret Caywood, Principal Assistant
Linda Harmon, Administrative Secretary
Myrna Kay Van Meter, Administrative Secretary[1]
Nancy Toombs, Administrative Secretary[2]
Jon Wertzler, Director of Administrative Services
Donald Campbell, General Counsel[3]
Eugene D. Attkisson, Principal Attorney[4]
Sallie Hubbard, Legal Secretary[5]
Vicki Sanders, Personnel Administrator
Barbara Crawley, Sr. Fiscal Clerk[6]
Connie Wolfe, Sr. Accountant[7]
Susan Harrell Burke, Sr. Accountant
Ruth Stubblefield, Sr. Fiscal Clerk[8]
Joey Lucas, Sr. Fiscal Clerk[9]
Eula Witt, Chief Clerk Typist

The Directory and Statistics of Coal Mines contained in the following pages is separated by Inspection Districts and by Counties.

Code letters to classify mines are as follows:

URC	Underground Rail Coal
URWC	Underground Rail Water Coal
UTC	Underground Truck Coal
UWC	Underground Water Coal
ARC	Auger Rail Coal
ASRC	Auger Strip Rail Coal
ASTC	Auger Strip Truck Coal
ATC	Auger Truck Coal
SRC	Strip Rail Coal
STC	Strip Truck Coal
SWC	Strip Water Coal
SRCL	Strip Rail Clay
STCL	Strip Truck Clay

Notations made are as follows:

A	Abandoned
CC	Change of Ownership
*	Estimated Tonnage

Production, employment and accident figures for River mines have been included in the totals for Rail mines for the purpose of compiling statistical charts.

Many of the coal production figures of individual mines which appear herein have been estimated by the Department. This was necessary because the reports of the operators of those mines, particularly mines which became abandoned during 1982, were delinquent at the time of publication.

MINE FIRES AND IGNITIONS IN KENTUCKY

OCTOBER 3, 1982, HAMILTON MINE NO. 1 (SOUTH), ISLAND CREEK COAL COMPANY, MORGANFIELD, UNION COUNTY. A fire was discovered in the track entry 62 crosscuts inby off the Main South in the 2nd West Entries at approximately 7:30 P.M. A rock fall had occurred in the track entry riding down the collar bars and trolley wire which was energized. The fire burned thru the rock fall and into a right crosscut into the belt entry. Direct method of fighting fire and use of foam were unsuccessful. It was decided on October 5, 1982 that all efforts to control the fire directly were exhausted and the south side of the mine was sealed. There were three slight injuries as the result of fighting this fire.

TRAINING AND EDUCATION

A full time Training and Education program was established in 1971, with a Federal Grant from the U. S. Bureau of Mines, now know as the Mine, Safety, and Health Administration (MSHA). This is a very effective program and is staffed with ten well qualified mining instructors and five electrical instructors who are stationed in the six district offices and mine rescue stations.

The following list shows the type of certificates issued and the number of men/women involved in the different safety courses conducted by this Division in 1982. (This includes both organized classroom work and field work).

CERTIFICATES ISSUED

Underground Mine Foreman	800

MINER TRAINING, EDUCATION AND CERTIFICATION DIVISION

The Board of Miner Training, Education and Certification as provided by Chapter 351, Paragraph 105, Kentucky Revised Statutes, was composed of the following members in 1982:

Willard Stanley		Chairman
William Joe Morgan	Mine Member	Eastern Kentucky
Daniel Brown	Mine Member	Western Kentucky
Andrew Adams	Operator Member	Eastern Kentucky
H. Tom Barton	Operator Member	Western Kentucky[1]
Raymond Ashby	Operator Member	Western Kentucky[2]
William E. Clayton, Director, Miner Training, Education and Certification Division		Non-Voting Member

Pursuant to KRS 351.106 Underground Miner Training and Certification Regulations were implemented in October, 1977. During 1978 the required 48-hour inexperienced miner's program was prepared and the first classes were taught in May, 1978. Through December 1982, 25,043 persons were issued Temporary Inexperienced Miner's Work Permits; of this number 5,187 were issued during 1982.

After the Underground Miner Training and Certification Regulations were implemented in October, 1977, the Board of Miner Training, Education and Certification established a date of November 1, 1978, as the date all persons employed in underground mines should meet this requirement. As of December 31, 1982, 40,703 persons have been issued underground miner certificates. Of this total, 562 are female miners.

Uniform two-day examinations for Mine Foremen and Inspectors were scheduled by the Board to meet the demand whenever it arose. Examinations were held in the Department offices in Lexington and at various localities throughout the coal fields, whenever the number of applicants made it justifiable. Mr. Doug Monroe served as Chief Examiner in the West Kentucky District and Mr. Cecil Sherman served as Chief Examiner in the Eastern Kentucky District with Mrs. Margaret Caywood as Exam Clerk.

Examinations were multiple choice in character. Applicants were given written examinations on the subjects of Mine Law; First Aid; Ventilation; Apparatus and Electricity; Fires and Explosives; General Mining Practices and Gases. Each applicant was tested on his/her ability to detect methane with a flame safety lamp and use an anemometer in the calculation of the rate of air current flow. The miner was further required to prove his/her knowledge of safe mining practices in an interview with the Examiner and to indicate safe and practical methods of ventilation on a typical mine map.

A list of those who successfully completed the required examination for foremen and inspectors is shown on the following pages:

RALPH PERRY, DIRECTOR
MINE SAFETY ANALYSIS DIVISION

MINE SAFETY ANALYSIS DIVISION

During the year of 1982, the Division of Mine Safety Analysts completed 841,055 contacts and observations. The Division has a staff of 39 people, consisting of a division director and 38 analysts in the field.

The reduction in manpower is due to people being assigned to solid shooting, rock dust sampling and roof control after June 15, 1982. The reduction in personnel has not affected production.

The Division also provides teams in each district, trained in the use of self contained oxygen breathing apparatus, for use in mine rescue operations. They are available twenty-four hours a day, and within a one-hour drive of any mine in their district. Analysts are also trained in First-Aid, Cardi-Pulmonary Resuscitation, Mine Ventilation, Roof Control, Management Techniques, Mining Methods and Mining Law.

The goal of the Department of Mines and Minerals, and the Division of Mine Safety Analysis is to use our knowledge and experience to reduce serious injuries and fatalities to the people in Kentucky coal mines.

LAWRENCE C. SCHNEIDER
DIRECTOR EXPLOSIVES AND BLASTING

DIVISION OF EXPLOSIVES AND BLASTING

The Division of Explosives and Blasting continued it's program of inspection, enforcement, education, and licensing of blasters in 1982. A total of 330 new blaster's licenses were issued during the calender year, 1982. Of these 330, 311 were general blaster's licenses, and 19 were limited blaster's licenses. As of December 31, 1982, there were 4,387 individuals holding current and valid Kentucky blaster's licenses. Of these, 4,200 were general licenses, and 187 were limited licenses. These blasters are engaged in all phases of the explosive industry; including surface coal mine blasting, construction, quarrying, and demolition.

During 1982, a total of 772 million pounds of explosives were detonated in Kentucky. This quantity represents 19.7% of the total explosives used in the entire United States. however, due to the economic conditions in 1982, this total is actually a decrease of 7.5% from the 834 million pounds used in 1981 in Kentucky.

The division conducted thirteen blaster's training courses throughout the Commonwealth in 1981. These classes were attended by 261 people, who were primarily applicants for blaster's licenses. The locations and number of attendees in these courses were as follows:

Location	No. Attending
Louisville	52
Corbin	19
Flemingsburg	16
Hindman	17
Lexington	8
Madisonville	45
Beaver Dam	20
Martin	15
London	13
Hyden	18
Pikeville	15
Maysville	6
Princeton	17

These courses consist of thirty hours of instruction covering all aspects of explosives use. The purpose of these courses is to raise the competency level of the blasters in the field as well as assist those preparing to take the blaster's examination. The public is better protected and the blaster's work environment is safer when the blaster's ability is enhanced through training.

The Explosives and Blasting inspectors answer 100% of all public complaints received by this division. These complaints primarily concern ground vibrations, noise, flyrock, and various other adverse effects of blasting. The inspector's investigation of the complaints involves inspection of the operation generating the complaint and extensive seismic monitoring.

In addition, the inspectors continue to make routine checks of all blasting operations to ensure compliance with the laws and regulations governing the use of explosives. The division inspects not only those companies using explosives, but also companies engaged in the manufacture, sale, storage, and transportation of explosives. Thirty-nine companies engaged in the sale or distribution of explosives in the Commonwealth registered with the division in 1982.

During the year the division has participated in a number of seminars sponsored by other state agencies and education institutions. It has been the aim to use every opportunity for education of the public and training of blasters in the safe use and associated hazards of explosives.

LETTER OF TRANSMITTAL

The Honorable Martha Layne Collins
Governor of Kentucky
Frankfort, Kentucky

Madam:

I have the honor to submit for your approval the report of the Department of Mines and Minerals for the year ending December 31, 1983, this being the one hundred and fourth report of this Department.

Very respectfully yours,
Willard Stanley, Commissioner
Department of Mines and Minerals

Lexington, Kentucky

This copy has been prepared by the Department of Mines and Minerals and paid for from state funds.

INTRODUCTION

Kentucky Coal production was 131,595,516 tons in 1983. The 1983 production of 131,595,516 tons was 19,716,927 tons less than the previous year of 151,312,443 tons. Kentucky remained the nation's largest coal producing state by out-distancing the nearest rival by 16,460,062 tons. In 1983 over sixty-four million tons of coal were mined by surface operations while over sixty-six million tons were mined underground.

The coal industry furnished direct employment for 45,368 miners.

Twelve miners were killed in Kentucky coal mine accidents in 1983.

The clay mining industry mined 241,910 tons in 1983. No fatal accidents occurred at clay mines during the year.

The following chart compares production of the various types of coal mines for the past two years:

	PRODUCTION IN TONS

DIRECTORY AND STATISTICS OF DEPARTMENT OF MINES AND MINERALS INSPECTION DISTRICTS

To facilitate the mine inspection duties of the Department, the coal fields have been divided into six inspection districts. A mine rescue station which serves as the district office is centrally located in each district. The Eastern Kentucky coal field is divided into five districts, with mine rescue stations located at Harlan, Hazard, London, Martin and Pikeville. An office at Madisonville serves the Western Kentucky coal field.

The operations for the district offices is directed from the office of the Commissioner located in Lexington. General staff and Lexington office personnel are as follows:

Willard Stanley, Commissioner
Margaret Caywood, Principal Assistant
Curtis Miller, Chief Examiner[1]
Faith Miller Cole, Executive Staff Advisor[2]
Nancy Toombs, Executive Secretary
Linda Harmon, Executive Secretary
Jon Wertzler, Director of Administrative Services
Eugene D. Attkisson, Principal Attorney
Sallie Hubbard, Legal Secretary
Vicki Sanders, Personnel Administrator[3]
Randy Donahue, Personnel Administrator[4]
Connie Wolfe, Sr. Accountant
Joey Lucas, Pr. Clerk[5]
Susan Burke, Sr. Accountant
Alton Peterson, Accountant Co-op Student[6]
Janet Lohr, Accountant Co-Op Student[7]
Eula Witt, Chief Clerk
Tammy Richard, Pr. Clerk
Karen Calvert, Pr. Clerk (part-time)[8]
Cathy Haynes, Clerk (part-time)[9]
Georgia Staab, Chief Clerk
Delbert Robison, Printing Equipment Operator
Larry Koster, Pr. Clerk (part-time)
John Knafl, Pr. Clerk (part-time)

The Directory and Statistics of Coal Mines contained in the following pages is separated by Inspection Districts and by Counties.

Code letters to classify mines are as follows:

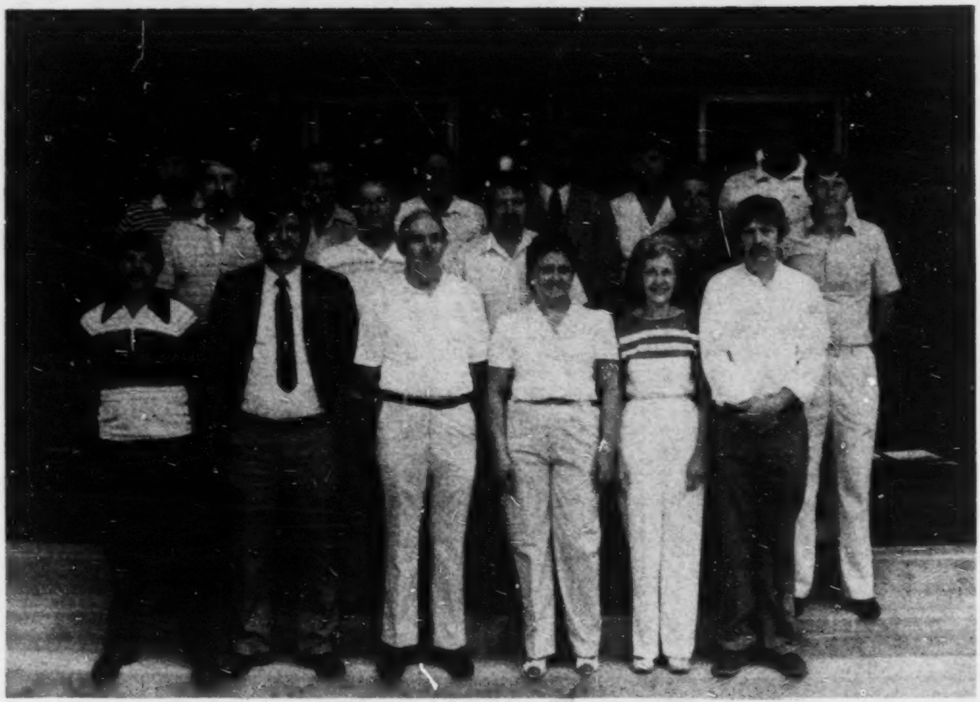
URC	Underground Rail Coal
URWC	Underground Rail Water Coal
UTC	Underground Truck Coal
UWC	Underground Water Coal
ARC	Auger Rail Coal
ASRC	Auger Strip Rail Coal
ASTC	Auger Strip Truck Coal
ATC	Auger Truck Coal
SRC	Strip Rail Coal
STC	Strip Truck Coal
SWC	Strip Water Coal
SRCL	Strip Rail Clay
STCL	Strip Truck Clay

Notations made are as follows:

A	Abandoned
CC	Change of Ownership
*	Estimated Tonnage

Production, employment and accident figures for River mines have been included in the totals for Truck mines for the purpose of compiling statistical charts.

Many of the coal production figures of individual mines which appear herein have been estimated by the Department. This was necessary because the reports of the operators of those mines, particularly mines which became abandoned during 1983, were delinquent at the time of publication.



MINES AND MINERALS HARLAN DISTRICT

MINE FIRES AND IGNITIONS IN KENTUCKY

FEBRUARY 15, 1983, MINE NO. 1, KaDEE COAL COMPANY, INC., META, PIKE COUNTY. A fire was discovered on a LRB 15-A Long-Airdox roof bolting machine approximately 1400 feet underground in the last crosscut to the left off of the No. 6 entry at 3:15 P.M. Temporary seals were built at the drift mouth and permanent seals were constructed the following day. There were no personal injuries.

APRIL 21, 1983, STAR NORTH MINE, PEABODY COAL COMPANY, GRAHAM, MUHLENBERG COUNTY. A flash of fire occurred when a self rescuer exploded after a roof fall occurred covering up 14 OCE-NCO self contained self rescuers on the No. 4 Unit, 1st North Panel off 1st Submain East off Main North, eight crosscuts from the face. Within one and one-half to two minutes, eight to twelve more rescuers exploded, again with a flash. There was some smoke in the area. A 15 pound fire extinguisher was expelled on the fall and the miner water hose was brought to the fall and the area completely saturated. Within 20 minutes the smoke was no longer coming from the fall. There were no personal injuries.

SEPTEMBER 15, 1983, PROVIDENCE NO. 1 MINE, ISLAND CREEK COAL COMPANY, MADISONVILLE, HOPKINS COUNTY. A methane gas ignition of unknown origin occurred at approximately 10:00 P.M. on the No. 5 Unit, 1st South off 1st West at the face of the No. 4 Entry. Two persons were in the area but did not know what caused the ignition. There were no personal injuries.

OCTOBER 5, 1983, SCOTTS BRANCH MINE, SCOTTS BRANCH COAL COMPANY, PIKEVILLE, PIKE COUNTY. A methane ignition occurred in the No. 2 Entry approximately 50 feet inby Spad No. 3-267 on the No. 300 Section at 7:10 P.M. At the time of the occurrence the continuous miner had loaded three or four shuttle cars of coal from the left sump and had backed out three or four feet from the face and was grading the bottom. Witnesses stated the flame was the width of the entry and extended back approximately 10 feet from the face. There were no personal injuries.

[1] Retired June 30, 1983.

[2] Transferred to this Division July 15, 1982 (is not included in the Federal Grant Program)

TRAINING AND EDUCATION

A full time Training and Education program was established in 1971, with a Federal Grant from the U. S. Bureau of Mines, now know as the Mine, Safety, and Health Administration (MSHA). This is a very effective program and is staffed with ten well qualified mining instructors and five electrical instructors who are stationed in the six district offices and mine rescue stations.

The following list shows the type of certificates issued and the number of men/women involved in the different safety courses conducted by this Division in 1983. (This includes both organized classroom work and field work).

MINER TRAINING, EDUCATION AND CERTIFICATION DIVISION

The Board of Miner Training, Education and Certification as provided by Chapter 251, Paragraph 105, Kentucky Revised Statutes, was composed of the following members in 1983:

Willard Stanley	Chairman	
William Joe Morgan	Mine Member	Eastern Kentucky[1]
Daniel Brown	Mine Member	Western Kentucky
Andrew Adams	Operator Member	Eastern Kentucky
Raymond Ashby	Operator Member	Western Kentucky
William E. Clayton, Director, Miner Training, Education and Certification Division	Non-Voting Member	

Pursuant to KRS 351.106 Underground Miner Training and Certification Regulations were implemented in October, 1977. During 1978 the required 48-hour inexperienced miner's program was prepared and the first classes were taught in May, 1978. Through December 1983, 27,809 persons were issued Temporary Inexperienced Miner's Work Permits; of this number 2,766 were issued during 1983.

After the Underground Miner Training and Certification Regulations were implemented in October, 1977, the Board of Miner Training, Education and Certification established a date of November 1, 1978, as the date all persons employed in underground mines should meet this requirement. As of December 31, 1983, 41,131 persons have been issued underground miner certificates. Of this total, 580 are female miners.

Uniform two-day examinations for Mine Foremen and Inspectors were scheduled by the Board to meet the demand whenever it arose. Examinations were held in the Department offices in Lexington and at various localities throughout the coal fields, whenever the number of applicants made it justifiable. Mr. Doug Monroe served as Chief Examiner in the West Kentucky District and Mr. Cecil Sherman served as Chief Examiner in the Eastern Kentucky District with Mrs. Margaret Caywood as Exam Clerk.

Examinations were multiple choice in character. Applicants were given written examinations on the subjects of Mine Law; First Aid; Ventilation; Apparatus and Electricity; Fires and Explosives; General Mining Practices and Gases. Each applicant was tested on his/her ability to detect methane with a flame safety lamp and use an anemometer in the calculation of the rate of air current flow. The miner was further required to prove his/her knowledge of safe mining practices in an interview with the Examiner and to indicate safe and practical methods of ventilation on a typical mine map.

A list of those who successfully completed the required examination for foremen and inspectors is shown on the following pages:

RALPH PERRY, DIRECTOR
MINE SAFETY ANALYSIS DIVISION

MINE SAFETY ANALYSIS DIVISION

During the year of 1983, the Division of Mine Safety Analysts completed 308,315 contacts and observations. The Division has a staff of 31 people, consisting of a division director and 30 analysts in the field.

The reduction in manpower is due to people being assigned to solid shooting, rock dust sampling and roof control after June 15, 1982. The reduction in personnel has not affected production.

The Division also provides teams in each district, trained in the use of self contained oxygen breathing apparatus, for use in mine rescue operations. They are available twenty-four hours a day, and within a one-hour drive of any mine in their district. Analysts are also trained in First-Aid, Cardi-Pulmonary Resuscitation, Mine Ventilation, Roof Control, Management Techniques, Mining Methods and Mining Law.

The goal of the Department of Mines and Minerals, and the Division of Mine Safety Analysis is to use our knowledge and experience to reduce serious injuries and fatalities to the people in Kentucky coal mines.

EXPLOSIVES AND BLASTING DIVISION

During 1983, 240 new general blaster's licenses were issued, and 4024 general licenses were renewed. Also, 28 new limited licenses were issued and 212 limited licenses were renewed. There were 259 general examinations and 37 limited examinations given. To obtain a general or limited blaster's license, the applicant must pass the prescribed written examination and must have two years of practical blasting experience. Fifteen courses were offered at various locations around the state and were attended by 224 people.

[1] Resigned December, 1983

[2] Transferred to Division December, 1983

The Division of Explosives and Blasting continued it's program of inspection, enforcement, education, and licensing of blasters in 1983. A total of 240 new blaster's licenses were issued during the calendar year 1983. Of these 240 new licenses, 212 were general blaster's licenses, and 28 were limited blaster's licenses. As of December 31, 1983, there were 4,243 individuals holding current and valid Kentucky blaster's licenses. Of these, 4,024 were general licenses, and 219 were limited licenses. These blasters were engaged in all phases of the explosive industry; 1,933 in surface coal mine blasting, 1,104 in construction, 229 in quarrying, and 960 were listed as engaged in general blasting, and 186 were unemployed.

During 1983, well over 700 million pounds of explosives were detonated in Kentucky. This quantity represents 20% of the total explosives used in the entire United States. However, due to the economic conditions in coal mining, this total is actually a decrease from the high point of 834 million pounds used in 1981 in Kentucky.

The division conducted fifteen blaster's training courses throughout the Commonwealth in 1983. These classes were attended by 224 people, who were primarily applicants for blaster's licenses. The locations and number of attendees in these courses were as follows:

Location	No. Attending
Owensboro	17
Pikeville	13
Hazard	15
Barbourville	10
Louisville	26
Lexington	22
London	10
Martin	6
Corbin	9
Elizabethtown	20
Morgantown	17
Hazard	17
Maysville	14
Madisonville	10
Whitesburg	18

These courses consist of thirty hours of instruction covering all aspects of explosives use. The purpose of these courses is to raise the competency level of the blasters in the field as well as assist those preparing to take the blaster's examination. The public is better protected and the blaster's work environment is safer when the blaster's ability is enhanced through training.

The Explosives and Blasting inspectors answer 100% of all public complaints received by this division. These complaints primarily concern ground vibrations, noise, flyrock, and various other adverse effects of blasting. The inspector's investigation of the complaints involves inspection of the operation generating the complaint and extensive seismic monitoring. During 1983, the division made 283 such investigations of public complaints and used the seismograph 162 times in order to resolve these complaints.

In addition, the inspectors continue to make routine checks of all blasting operations to ensure compliance with the laws and regulations governing the use of explosives. The division inspects not only those companies using explosives, but also companies engaged in the manufacture, sale, storage, and transportation of explosives. Thirty-seven companies, engaged in the sale or distribution of explosives in the Commonwealth, registered with the division in 1983.

During the year the division has participated in a number of seminars sponsored by other state agencies and educational institutions. It has been the aim to use every opportunity for education of the public and training of blasters in the safe use and associated hazards of explosives.
